General Grant Continues in an Even

Dr. Shady's Official Bulletin Notes but
a Slight Rally in the Losing
Battle.

General Grant.

By Telegraph to THE SENTINEL.

Mr. McGraw, June 25.—At 11 o'clock last night General Grant was sleeping and slept, with slight breaks, until 2 a. m., when the patient was coughing to clear his throat. He was relieved at once by a saline solution with carbolic acid, after which cocaine was applied and the general again slept. When the physician entered, at 9 o'clock, it was believed the general had slept eight hours since retiring.

Dr. Shady to-day telegraphed to the *Medical Record*, for its Saturday issue, the following official bulletin of General Grant's condition: "The progress of the disease from which General Grant is suffering is, barring accidental complications, slow, comparing the condition of the patient with what it was a month ago. The changes can be appreciated. Taking this period of time into consideration it can be said the swelling under the angle of the lower jaw on the right side has increased and has become harder and more deeply fixed. It has shown a tendency to progress in the direction of downward and forward upon the right side of the neck. The infiltration extending to the neighboring glandular structures and the pains in those parts, although fortunately not frequent nor severe have a significance which cannot be ignored. The ulceration on the right side of the base of the tongue has become deeper and more irregular although its superficial area is not perceptibly increased. This is the seat of the pain occasionally in awakening and when certain examinations of the throat are made. The destructive process on the right side of the uvula is apparently quieted although a new portion of the margin of the palatal curtain is showing a tendency to break down. The voice has been reduced to a whisper, due partly to inflammatory involvement of the vocal cords and partly to nervous atony of the latter. There is some impairment of the general's strength and some loss in weight, although the appetite is unchanged and the usual amount of nourishment taken. The removal to Mr. McGregor has so far proved beneficial. It has enabled the patient to recover lost ground and thus in a measure has counterbalanced the effects of his local malady."

Harvard Won.

By Telegraph to THE SENTINEL.

New LONDON, Conn., June 25.—The Harvard-Columbia boat race was won by Harvard.

In the Harvard-Columbia freshman race both crews kept side by side for the first hundred yards, and then Harvard drew slowly ahead and continued to increase the lead to the finish and crossed the line an easy winner by ten lengths. The time was Harvard, 12 min., 32 sec.; Columbia, 13 min., 12 sec.

Worse Than War.

By Cable to THE SENTINEL.

PARIS, June 25.—All accounts received from Tonquin show that the ravages of disease among the French troops there are simply appalling. Three thousand invalid soldiers have been sent home. Three hundred soldiers are now down with disease and await transportation home. The deaths are from fifteen to twenty daily.

Cut His Throat.

By Telegraph to THE SENTINEL.

NEW YORK, June 25.—Carpenter, who was on his second trial for the murder of his wife by stabbing her, this morning cut his throat in his cell in the Tombs. His wounds are considered dangerous and the trial was postponed till Monday next.

Killed.

By Telegraph to THE SENTINEL.

INDIANAPOLIS, June 25.—A freight train on the Indianapolis, Decatur and Springfield road, at North Salem last evening, knocked an unknown woman and her two children, aged three and twelve, off a twenty-foot trestle killing them.

Our Forests Measured.

By Telegraph to THE SENTINEL.

DEER PARK, Md., June 25.—At the session of the convention of American Society of Engineers, Mr. Collingwood,

of Elizabeth, N. J., read a paper on preservation. The writer concluded that the supply of white pine in the United States is certain to be exhausted before the end of the century and probably in Canada also. The southern pines at present consumption are good for one hundred and fifty years. The supply of spruce and hemlock east of the Mississippi river is probably good for twenty-five years. The supply of hard woods, black walnut and ash is being rapidly exhausted. The supplies of other kinds of wood are, however, so abundant that a famine cannot be predicted.

G. A. R.

By Telegraph to THE SENTINEL.

PORLAND, Maine, June 25.—Several thousand of the veterans left early this morning for a sail down the harbor, others took trains for Old Orchard, while still others have gone to the White mountains. It is not thought likely that a ballot for commander-in-chief will be taken before to-morrow. The only candidates mentioned thus far are Major John W. Durst, of Chicago, Hon. Samuel S. Burdette and John R. Arnold.

A Nice Hatchet.

By Telegraph to THE SENTINEL.

WASHINGTON, June 25.—Appointments of presidential postmasters are: James H. More, Monongahela City, Pa., vice C. W. Hazzard resigned; M. Gleinen, Norfolk, Va., J. W. Lang, suspended; John F. Wedow, Marine City, Mich., vice J. J. Spinks; Edward Duffy, Ann Arbor, Mich., vice J. C. Knowlton, suspended; S. R. Thorne, Piqua, O., vice L. S. Jordan, suspended. All above appointments were made for partisanship.

LOCAL LINES.

Sheriff Nelson made a fee of \$700 out of the sale of the Burgess estate.

Double header freight trains on the Pittsburgh road are a half mile long.

Manager Crosser and a committee of Kerr Murray strikers had another interview to-day. The result is not known.

Wm. D. Baker, of Monroeville, has received an appointment out west under the treasury department. The nature of the place does not appear.

Fort Wayne is not mentioned by the New Orleans papers in noting the school exhibit of Indiana. Not even the sunplus fund is mentioned.

M. P. Lonaire, of Fort Wayne, was elected a member of the finance committee of the State Sunday School association at Lafayette yesterday.

The war between the agricultural men is at an end. The affidavits in Justice Ryan's court, charging everything from a simple knock down to murder, were withdrawn to-day.

The Wahab shops are operated by almost a full force to-day, and there is little said of the strike here now. A few Knights of Labor refrain from work and others are hindered by the company.

Mrs. George Henderson died at Grand Rapids yesterday and at noon her remains came here and were interred at Lindenwood cemetery, in the presence of quite a concourse of friends. Her husband died some time ago and was buried here with Masonic honors.

Mr. S. W. H. Howard, of Toledo, one of the old pioneers of the Ohio valley, is in the city to-day calling on old time friends. In company with Dr. B. S. Woodworth and Hon. F. P. Randall, he viewed the site of the old fort, and found quite a prominent portion of it still undisturbed by the improvements of the city. He thinks, inasmuch as the remainder is controlled by the city, some interest should be taken in his project—that of partitioning congress to make an appropriation to mark such historic spots.

Charley Ryan Shot.

Charley Ryan, son of Justice Daniel Ryan, sent a rifle ball through his hand to-day. He was out to shoot a rabbit with his brother, Oscar, and in handling the rifle it was prematurely discharged, the bullet passing crosswise through the palm of his hand.

A Tough Femail.

Mrs. Meyer this morning arrested Grace Jackson, near the Standard oil tanks east of town. The hardened female is but sixteen years of age. She was about the place named with a gang of boys yesterday and slept in an orchard last night. The girl says her home is at North Manchester, from which place she was sent to the reform school when eleven years old. She has a sister at Lee Clark's marine hospital and an uncle named Allen and Slover living here. Mayor Muhler ordered the girl sent home and Trustee Gaffney gave her a rail-road ticket.

DOING GOOD WORK.

Texas Citizens Hang Fifteen Mur-
derers and Horse Thieves.

By Telegraph to THE SENTINEL.

DALLAS, Texas, June 25.—News was received last night that Tuesday night a citizens' posse from Texas and the Indian territory side of the Red river, who have for several weeks past been chasing

a gang of outlaws who have been murdering the citizens and stealing horses and stock in that section so long, overtook the gang and captured eight and hanged them to one tree. They then proceeded a few miles farther on and captured four others whom they served in a similar manner. The news was also confirmed from Burlington and Gainesville that about three weeks ago three horse thieves were lynched, making a total of fifteen deaths of outlaws to the credit of this posse. Fully twenty members of this gang have been slain since last spring and half a dozen good officers and citizens lost their lives.

The Cholera.

By Cable to THE SENTINEL.

MADRID, June 25.—The official report of the new cases of cholera and deaths in Spain on Wednesday are: Madrid, 3 new cases and 8 deaths. City of Valencia, 63 new cases and 25 deaths; the rest of the province of Valencia, 549 new cases and 314 deaths. City of Murcia, 105 new cases and 34 deaths; remaining parts of the province of Murcia, 218 new cases and 87 deaths. City of Toledo, 6 new cases and 2 deaths; remainder of the province of Toledo, 95 new cases and 8 deaths.

A Priest Escapes.

By Cable to THE SENTINEL.

LONDON, June 25.—Rev. Luigi Bonomi, an Italian missionary priest, and for a long time a captive in the camp of El Mahdi, has made his escape and arrived at Dongola. Father Bonomi reports that all the priests made prisoners during the rising in Soudan and the march of El Mahdi are in good health.

Raised to the Peerage.

By Cable to THE SENTINEL.

LONDON, June 25.—Sir Nathaniel Rothschild, Sir Evelyn Baring and Mr. John Morley will be raised to the peerage.

The house of commons adjourned until the 6th of July.

LONDON, June 24.—Soon after the members of the late Gladstone ministry had retired from Windsor Castle, after delivering up the seals of office, the members of the new ministry, formed by the Marquis of Salisbury, arrived and went through the ceremony of accepting office from the queen, and receiving the seals, making the acts of obeisance by kissing the hands of her majesty. Great crowds of people assembled at the railroad depot upon the arrival of the train bearing the new ministry. The Marquis of Salisbury and Sir Stafford Northcote were loudly cheered, Sir Stafford to an especial degree. Lord Randolph Churchill, on the contrary, was received with mingled cheers and groans.

Mr. Gladstone rode to the house the correspondence between himself and the Marquis of Salisbury relating to the recent deadlock in the cabinet, which was conducted through the medium of the queen. Letters of Mr. Gladstone convey to the new government assurances of a general support upon the part of the liberals. The ex-premier, however, throughout the whole correspondence declines to make any specific pledges.

The Salisbury correspondence which Mr. Gladstone read comprised a series of letters of date ranging from June 17 to June 21. Lord Salisbury demanded a pledge of support to enable the conservatives to establish the necessary business of the session by giving the new government precedence on those basis for supply or appropriation bill, leaving the deficit to be met by an issue of exchequer bonds or a tem-

porary loan. Lord Salisbury explained that it would be useless to take office without the support of the liberal leaders, because an appeal to the country under the seats bill would be impossible before November. Mr. Gladstone in reply, gave assurance that he had no wish to embarrass the new government. After consulting his colleagues he informed the queen that he conceived that it would be contrary to public duty to compromise the liberty of the house of commons by giving specific pledges not to oppose the remaining business of the session before possessing all the facts bearing upon such business. He concluded by assuring the queen that facilities for expediting the supply might reasonably be provided and there would be no attempt to withhold the ways and means required for the public service, but could give no specific pledges in regard to undefined questions.

The Geographical society is mapping out another African expedition, to be under the direction of Mr. Lost. It is understood that this new expedition will start in August next from Zanzibar and proceed thence to Linder. From this point a southwesterly direction will be taken, and the expedition will endeavor to reach Lake Shirwa, whence it will proceed either to Quilimane or Angosha, on the east coast, and about 700 miles from the starting point.

Sir Henry Drummond Wolff, present member of parliament for Portsmouth, will go to Cairo forthwith as an envoy extraordinary and minister plenipotentiary, with the rank of privy counselor.

LONDON, June 25.—Sir Henry Holland, secretary of the treasury, Rt. Hon. Robert Brooke has been made under foreign secretary, and Mr. Charles Dalrymple, takes the office of under secretary of the home department. Admirals Hood, Commerwell and Codrington have been appointed first, second and third sea lords respectively. Earl Beauchamp has been made paymaster-general.

Earl of Mount Edgecombe has been appointed lord steward; the Earl of Lathom, lord chamberlain.

Private advices from Berlin state that Emperor William is worse.

Charles Warren Adams and Miss Mildred Coleridge, daughter of the lord chief justice of England, were married to-day. The marriage was private. Lord Coleridge was asked by his daughter to attend the wedding. He refused, and in consequence of this refusal, no other members of the family of Lord Coleridge were invited. Invitations were, however, issued to and accepted by all the members of the family of the late Lady Coleridge, and all were present at the wedding.

St. PETERSBURG, June 24.—The government has issued an order forbidding newspapers to make any reference whatever to the action of Russia in the Afghan affair.

RICHMOND, Tex., June 25.—A fire here on Tuesday caused a loss of from \$0,000 to \$100,000. The insurance will scarcely aggregate \$15,000.

NEW YORK, June 25.—A Washington special to the Evening Post says:

"Mr. Burchard, director of the mint, according to present information, has decided to test the power of the president to remove him from office. There are two offices in the treasury which were created by the special statute tenure, which it is assumed, makes it impossible for the president to suspend the incumbents unless the senate shall consent. The offices are director of the mint and comptroller of currency. The law under which the director of the mint receives his appointment is as follows:

"He shall be appointed by the president, by and with the advice and consent of the senate, and shall hold office five years, unless sooner removed by the president upon reasons to be communicated by him to the senate.

The request has been made for the resignation of Mr. Burchard. He will undoubtedly refuse to resign. There have been many conflicts of opinion, and Mr. Burchard is regarded by the new treasury officers as an obstruction.

Trouble in Camp.

By Telegraph to THE SENTINEL.

WHEELING, W. Va., June 24.—The Prohibition convention held at Grafton to-day split on the third party question, and about a third of the delegates favoring a non-partisan action withdrew. The remainder resolved that the third party is redundant in West Virginia. With few exceptions, they were all Republicans who left the convention. They took out the most influential element of the Prohibitionists.

The use of iodoform or mercurials in the treatment of eczema—whether in the form of suppositories or ointments should be avoided, as they are both injurious and dangerous. Iodoform is easily detected by its offensive odor. The only reliable eczema remedy on the market to-day is Ely's Cream Balm, being free from all poisonous drugs. It has cured thousands of chronic and acute cases, where all other remedies have failed. A particle is applied into each nostril, no pain; agreeable to use. Price fifty cents; of druggists.

HUNT'S KIDNEY & LIVER
REMEDY. NEVER KNOWN
TO FAIL.

30 YEARS
RECORD.

Physicians' Testimony.

A. W. Brown, M.D., of Providence, R. I., says: "I have used Hunt's (Kidney and Liver) Remedy in my practice for the past sixteen years, and cheerfully recommend it as being a safe and reliable remedy."

Another prominent doctor of Providence says that "I am frequently asked to prescribe a remedy for Hunt's Kidney and Liver Remedy. I find no failing them that they are worthless in comparison to it."

An Old Lady.

"My mother, 76 years old, has chronic kidney complaint and dropsy. Nothing has ever helped her like Hunt's (Kidney and Liver) Remedy. She has received great benefit from it. I take a spoonful of it every day." — W. W. Sunders, Denver, Colo.

A Member's Wife.

Rev. Anthony Wood, of Philadelphia, says: "I always keep Hunt's (Kidney and Liver) Remedy in my house. Taken in small doses occasionally at night, it prevents headache, and regulates the kidneys, stomach and other organs."

"Disease soon shaken, by Hunt's Remedy taken."

THURSDAY, JUNE 25, 1885.

A LETTER from Barnum has been published recently in an English newspaper, in which he says that twenty years ago, when he began the management of his traveling show with 500 persons, it was made a condition that they should be discharged and forfeit \$5 if they were not total abstainers from strong drink during the season of seven months. Nearly every one complied, and at the end of that time he offered to invest their savings and guarantee them the principal with interest at 6 per cent, if they would still continue to abstain. Over 400 of them accepted the offer, and most of them to-day have several thousand dollars safely invested.

Blotches Cured.

I used your CUTICURA REMEDY for blotches and am completely cured, to my inexpressible joy. CUTICURA SOAP is the best I have ever used, and to the profession it is invaluable for cleansing the skin thereby removing all "wark, grease, paint," and all stuff used by them, leaving the skin pure and white and soft. My greatest pleasure is to recommend to you such an article as this. H. MACK.

Best for Anything.

Having used your CUTICURA REMEDY for eighteen months for Trotter, and finally cured him, I am anxious to get to sell it immediately. I can recommend it beyond any remedy I have ever used for Trotter, Burns, Cutis, etc. In fact, it is the best medicine I have ever tried for anything.

Dr. Dills, not being able to care for him properly here, took Mr. Ross with him to Fort Wayne, this noon. Mr. Ross has been suffering great pain with one of his eyes, cataract having formed." The injured eye has been operated on successfully and Mr. Ross is himself again.

NEARING THE END.

The Great Sengerfest Approaches the End in Grandeur—Evansville Captures the Next Fete—The Parade and Picnic.

The Sengerfest is still uppermost in all minds and music and song are topics of absorbing interest. The executive officers of the visiting societies held a business meeting at Arion hall this morning and decided that the next state sengerfest should be held at Evansville in 1877. The constitution and by-laws of the state society were slightly amended, and resolutions were unanimously adopted tendering the heartfelt thanks of the visitors to the Arion and Sengerfest societies and the whole people of Fort Wayne for their generous hospitality, their warm friendship and the ever increasing kindness shown to strangers.

THE MATINEE.

The matinee yesterday afternoon was largely attended. It is too remote for criticism, but the cornet solo by Fred Austin, of Chicago, and the violin solo by Professor Junek, of Evansville, deserve mention. Miss Kellogg and Sig. Wehber sang a duet, and Mr. Babcock's selections were particularly pleasing. The Haydn quartet, the mixed chorus and orchestra were as usual tendered ovations.

THE EVENING CONCERT.

The first grand concert of the fest occurred last evening and drew out the largest audience ever assembled at any concert in Fort Wayne. The occasion was such, with the excellent music, attractive decorations and enthusiasm of the people, as will linger in memory after the sociable and entertaining guests have left, and to have missed it would have constituted the lapse of one of the delightful recollections of a life time.

The orchestra was again the great card. Very sensibly they substituted Ambrose Thomas' lively and elegant "Raimondo" for the "Don Juan" overture, much to the delight of the vast crowd, which showed its satisfaction by every demonstration of approval. The Haydn Symphony was played beautifully, but was too stately and lengthy to please. It seems to us that in the days of Haydn people must have had a surplus of spare time.

The choruses were grand, but the full effect of their impressiveness was hampered and prevented by an overladen accompaniment. If Mr. Sherwood had overpowered Miss Kellogg's voice, as the orchestra did those of the members, she could never have commanded an encore or imparted any pleasure. It is a question of fitness, and the rule that is good for one singer should also hold good for a chorus of singers. We trust that the management will heed this hint.

Miss Kellogg sang the brilliant "Ernani Involami" to Mr. Sherwood's inspiring accompaniment, and as usual delighted the concourse, who applauded until she returned and gave a quaint ballad about three foolish people of her own sex, the moral of which we command to the consideration of all good-looking girls; even those from Indianapolis.

Mr. Babcock was the hero of the evening. He sang Mendelssohn's great comic song, "I am a Roamer," with such voice and unction as to provoke the most peremptory recall of the evening. He will be remembered as one of the greatest singers that have visited Fort Wayne.

Mr. Wehber was also recalled for his singing and pleased the audience. Mr. Wehber has a pleasing voice, but his selections are not catchy.

Mr. Sherwood is unquestionably the most accomplished pianist we have heard here since the great Rubenstein. The immense size of the Princess rink is unfavorable to pianoforte music, but if people will listen to Mr. Sherwood's playing they will hear the most perfect technique and exquisite sentiment which the piano can be made to yield.

The Haydn quartet again charmed the assembly and their singing received generous approbation. The gentlemen suffer little by a comparison with the stars of the fest.

To-night will be the last chance to hear the music, and we assure our readers that the program is one of the very best, let everybody attend and close the festival in a grand testimonial. The following is the program:

1. Overture—"Ermont".—Beethoven Orchestra.

2. Male Chorus—"O Geist der Toene".—All the societies united (with orchestra.)

3. Soprano Solo—"Seeme und Prater".—Weber (From Der Freischütz) Miss Kellogg.

4. String Quartet—*Adagio* from Quartett in D Minor.

5. Tenor Solo—"Inhalte Wirth".—Haydn (from the creation.) Mr. Weber.

6. Piano Solo—"Grand Polonaise in F".—Liszt Mr. Wm. Sherwood.

7. Overture—"La Jazza Ladra".—Rossini Orchestra.

8. Male Quartet—"Vocal March".—Rock Haydn Quartet.

9. Bass Solo—"Rolling in Fanning Bellowes," (from the creation.) Haydn Mr. Babcock.

10. Cornet Solo—Selected.

Mr. Austin, (from Chicago.)

11. Soprano Solo—"Florian's Hone".

—Goddard

Miss Fanny Kellogg.

12. Male Chorus—"Das Lied wird That".

All the societies united (with orchestra.)

THE PICNIC AND PARADE.

To-morrow the feast of song will close with a street parade and picnic at the Tivoli garden. The home and visiting societies, the fire department, the city officers, invited organizations, guests from abroad and citizens generally will participate in the parade which occurs at 9 o'clock in the morning. The societies will form on West Main street, the head of the line resting on Calhoun. Chief Marshal Bettler will signal the movement and to the music of Phil Keintz's City band the procession will proceed east on Main street to Lafayette; south on Lafayette to Berry; west on Berry to Ewing; south on Ewing to Washington; east on Washington to Harrison; south on Harrison to Jefferson; east on Jefferson to Calhoun; south on Calhoun to Columbia, and east on Columbia to Spy Run avenue, thence to the Tivoli garden, where the day will be passed in music, song and social intercourse. This will close the greatest musical event in Fort Wayne's history. It was musically a grand success and financially so in a moderate way.

Capt. Christ Hettler will be chief marshal and has named the following gentlemen to assist him: Chas. E. Biese, L. C. Zollinger, Joseph Storm, Louis Cettler, Chris Newcomer, F. F. Holtz, E. L. Chittenden, Frederick Roth, William Doehlman, Louis Fox and Fritz Schmuckle.

THE RACES.

The Tivoli festival did not catch last night.

There was a picnic at Mad Anthony park to-day.

The acoustic properties of the Princess rink are marvelous.

The railroad excursion business was not what it might have been.

Fred Austin's cornet is studded with diamonds. It was a gift to him.

Judge Hench took Miss Kellogg for a drive yesterday and whispered historic information to her.

The *Sentinel* is favored by the Sengerfest people and a dozen complimentary notes lie on our desk.

A lawn party listened to the music at the Sengerfest on the lot just east of the Princess rink last night.

Bayard Gray, of the *Portland Sun*, and son of Governor Gray, was in the city and attended the fest last night.

Mrs. Morse, wife of H. E. Morse, of Chicago, formerly editor of *The Sentinel*, was noticed among the visitors last night.

Captain Dehl detailed an officer for duty at the Princess last night and the concert was not disturbed as on the previous night.

The visiting singers were out serenading last night until the hours were small. They are always pleasant and gentlemanly.

The managers of Sengerfest are criticized because they did not give complimentary tickets to the sisters, cousins and aunts of a few newspaper men.

The reporter's gallery was occupied last night. Not, however, by reporters, who won't mingle with people hankering after a conspicuous place and cheap notoriety.

It is currently reported that Messrs. Louis Fox and Captain Christ Hettler will favor the audience at the Princess to-night with their inimitable rendition of "Lauderbach."

Babcock, the star of the Sengerfest, is studying for the protestant ministry. Although the most liberal inducements are held out to him, he still insists on leaving the concert stage.

The Sengerfest management should strive to popularize its music. The program selections are stiff and classic. There is some beauty in modern music and song even if professors don't think so.

The public generally are cordially invited to take part in the parade to-morrow morning in honor of the visiting societies. It is hoped all will turn out and make the procession a monster in numbers.

The *Sentinel* gave translations of the German speeches of Messrs. Berghoff and Mack. Other papers are at liberty to use them. The *Sentinel* allows nothing to hinder its enterprise, and while newspaper men looked blank the *Sentinel* linguist noted the German words in the purest English.

Miss Kellogg is a charming person to meet. She paid a nice compliment to the ladies chorus, saying: "I never looked at a prettier lot of girls. They are just lovely," and they were in the opinion of *The Sentinel* critic. Indeed the ladies did not receive the newspaper mention they deserved. Their singing could not be excelled, and to the chorus not an objection can be noted. It was one of the happiest features of the fest.

The Wabash company has already made Fort Wayne a partial division head quarters and the engineers and crews of passenger trains 41 and 46 are now changed at this point.

HITS IT RICH.

Michael Koehler, the Brick Maker and Irrepressible Politician, falls heir to a cool million of money.

John Bright, a British attorney, has been in the city for a week and his mission is to establish the claim of Mike Koehler, the well known brick maker and politician, to the fabulous Koehler fortune awaiting claimants in England. Counsellor Bright has linked Mike Koehler to the British millionaire and established his claim by family records and sworn statements.

The estate is one left to the descendants of George Frederick Koehler, and by the restrictions of his will it has been accumulating for nearly one hundred years, and now amounts to between three and four million dollars.

This vast sum is in a large landed estate at Woolwich, England, and in cash and government securities deposited in the bank of England.

The history of this great estate is a very interesting one. One George Frederick Koehler, having run away from Germany when but a boy, enlisted in the English royal artillery in 1758, and was discharged five years later. He then entered the military service of the East India company and was killed in battle. He had married Betty Dean at Woolwich, England, and left a son named George Frederick, who entered the banking house of Walter Pass, in London, in whose service he rapidly advanced, and finally married his employer's daughter, in time inheriting the entire property.

In 1780 George Frederick also entered the royal artillery, going to Syria, where he was made brigadier general in the sultan's service. His wife accompanied him in his travels, and died in Jaffa, on the 14th of December, 1800, and two weeks later the husband also died, leaving a will, the intentions of which were not to be carried out until the sum of money to be divided among his next of kin at the period fixed by the will amounted to \$2,000,000. The time expired some time ago and inquiries were then made for the rightful heirs. This inquiry was conducted mainly through the newspapers, where it met the eye of several of the Koehler descendants. They immediately sent their claims, and through them a number of the other heirs to the fortune were located.

Mr. Koehler takes his honors easy and as his share amounts to just a cool \$100,000, he can afford to look with a degree of disdain on his impudent friends who will now seek the loan of an "X" to two.

THE TELEPHONE LAW.

Some weeks ago the telephone managers issued a circular reserving the right, on and after June 30, to discontinue telephone services, alleging as a reason unfriendly legislation by the last legislature. Since then the matter has been held in abeyance, but the public has not changed from the original belief that it was merely a bluff. It is learned that a meeting of the directors will be held at Chicago to-day and a determination will probably be reached; but it is the understanding that the company will await the conclusion of a test case to be carried to the supreme court immediately following the proclamation that the law is in force.
